CONNECT PROTECT

Send

Send Information to Residents
An Incredible Tool for GEO-targeted Communications with Residents.

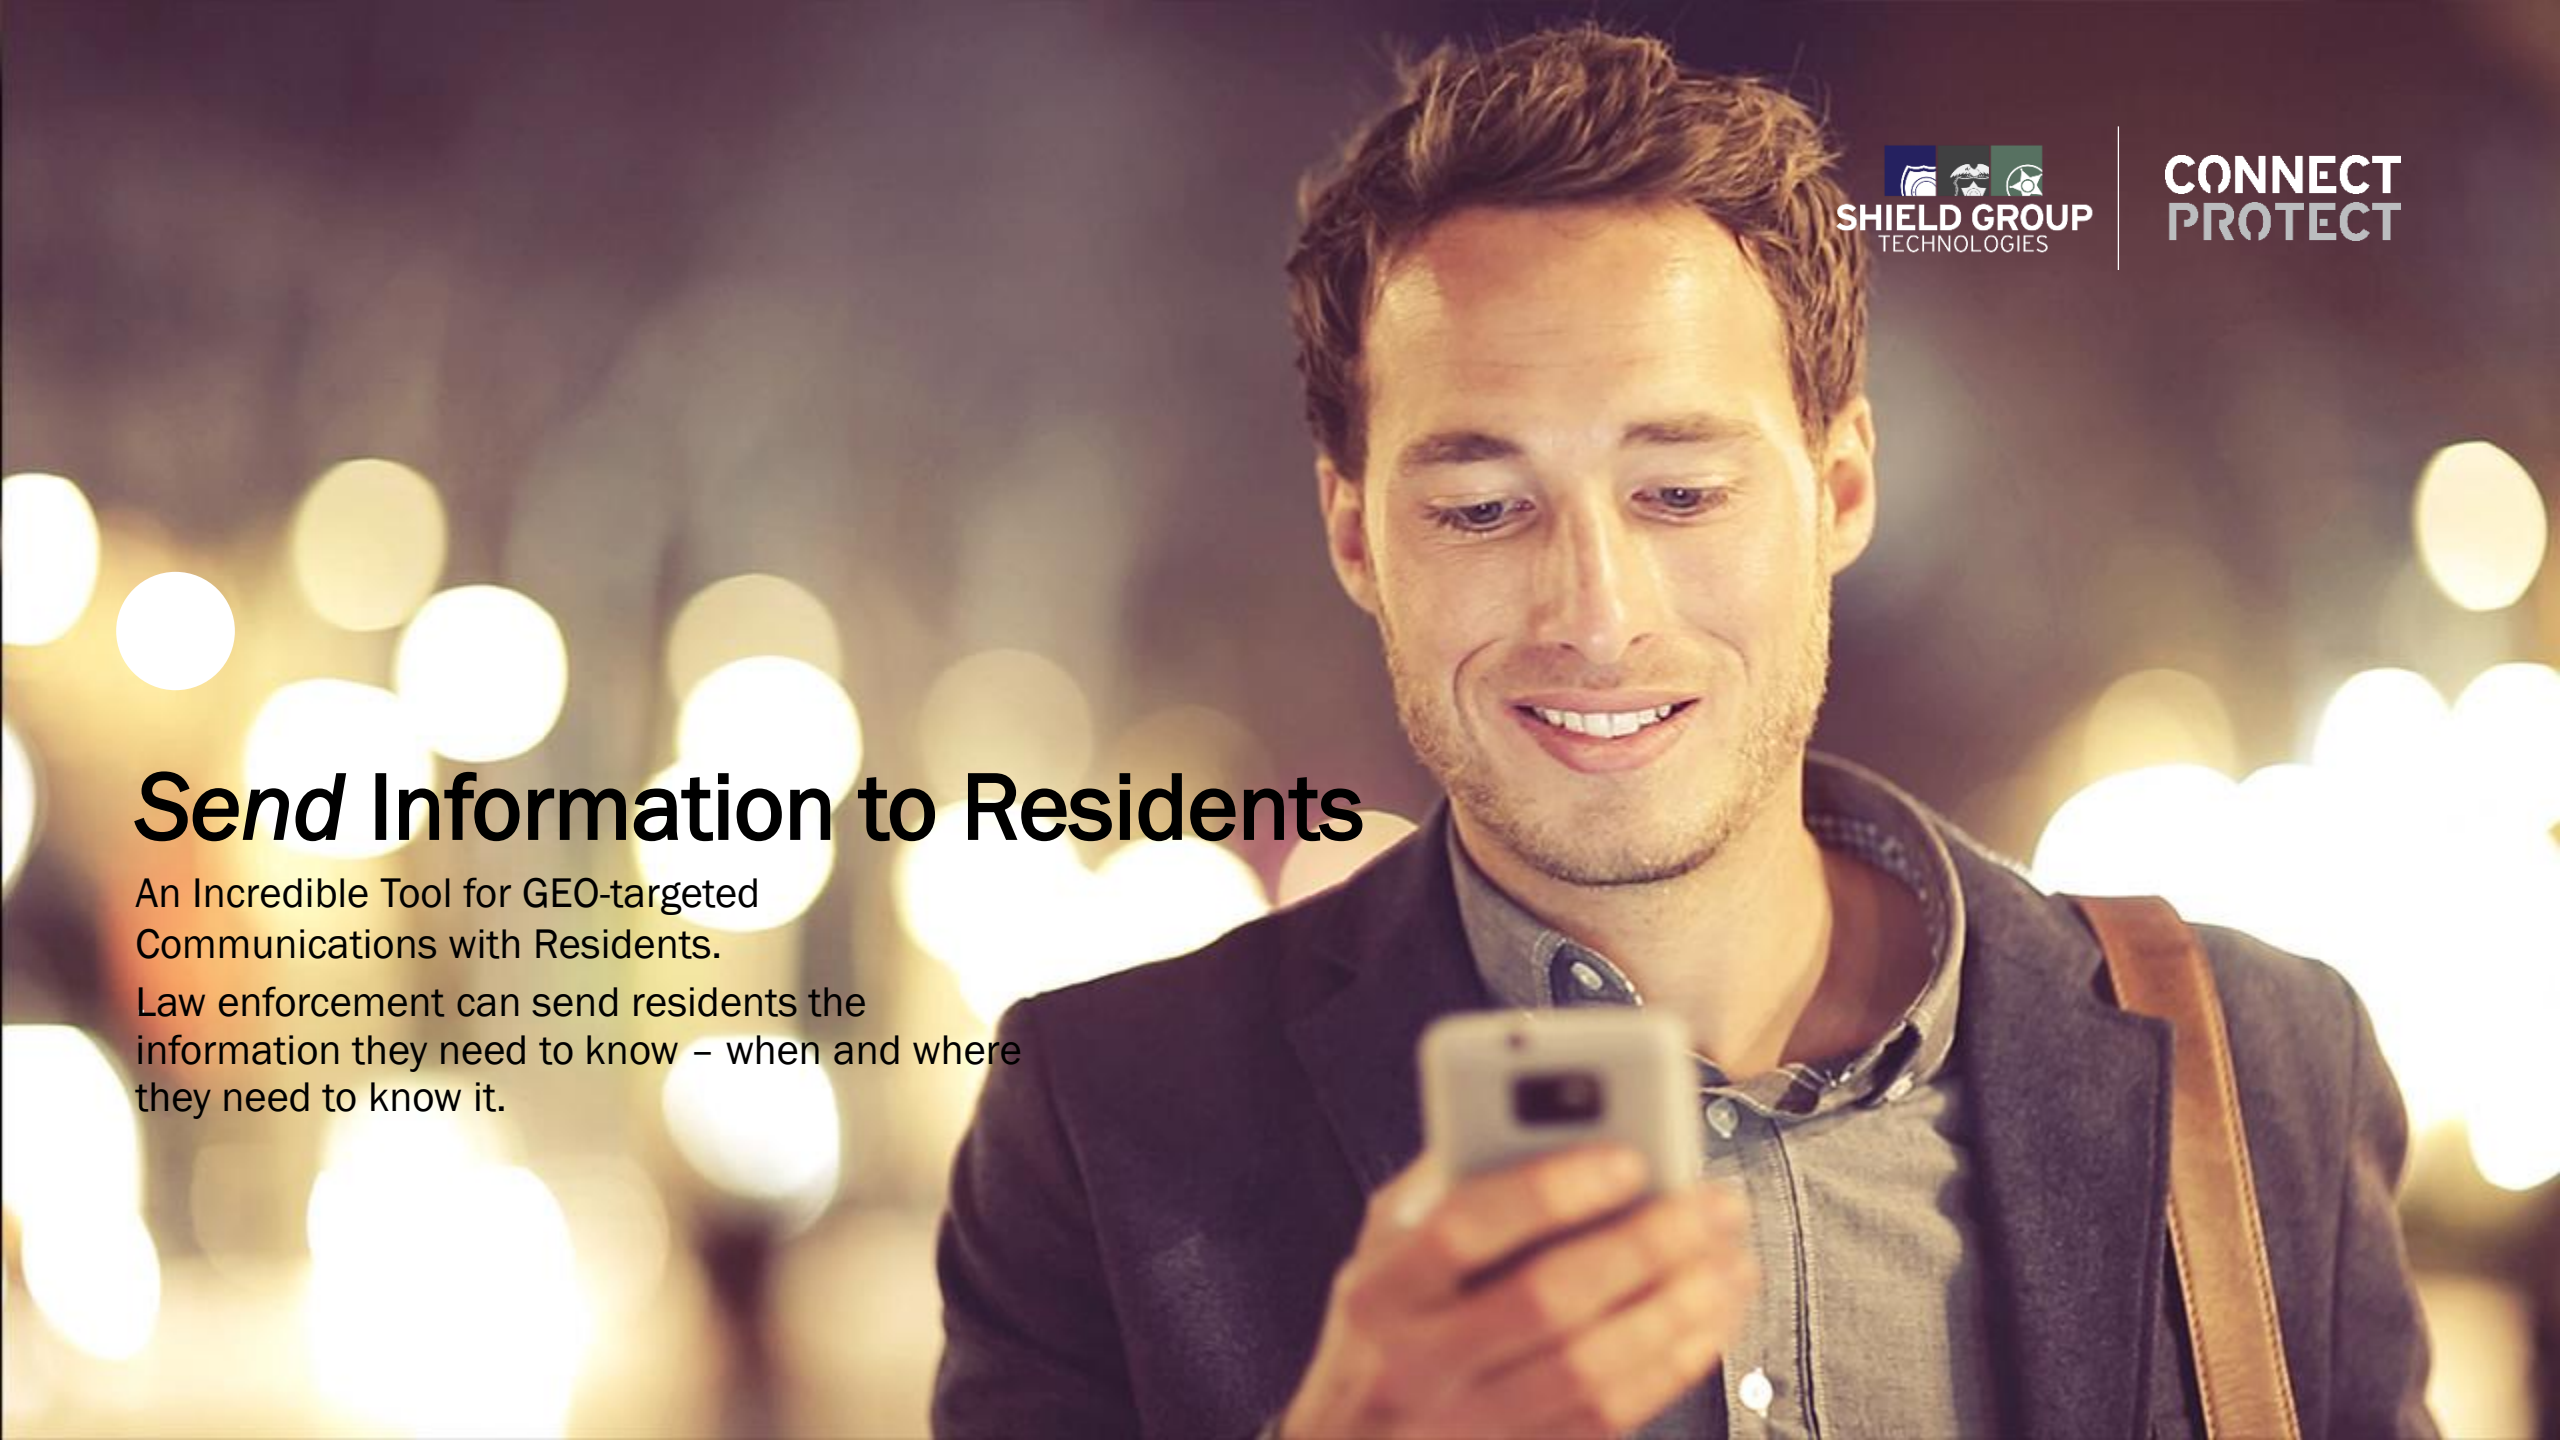
Receive

Receive Information from Residents
Control and Direct Incoming Suspicious Activity and Other Information They Send.

SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT

Receive Information from Residents

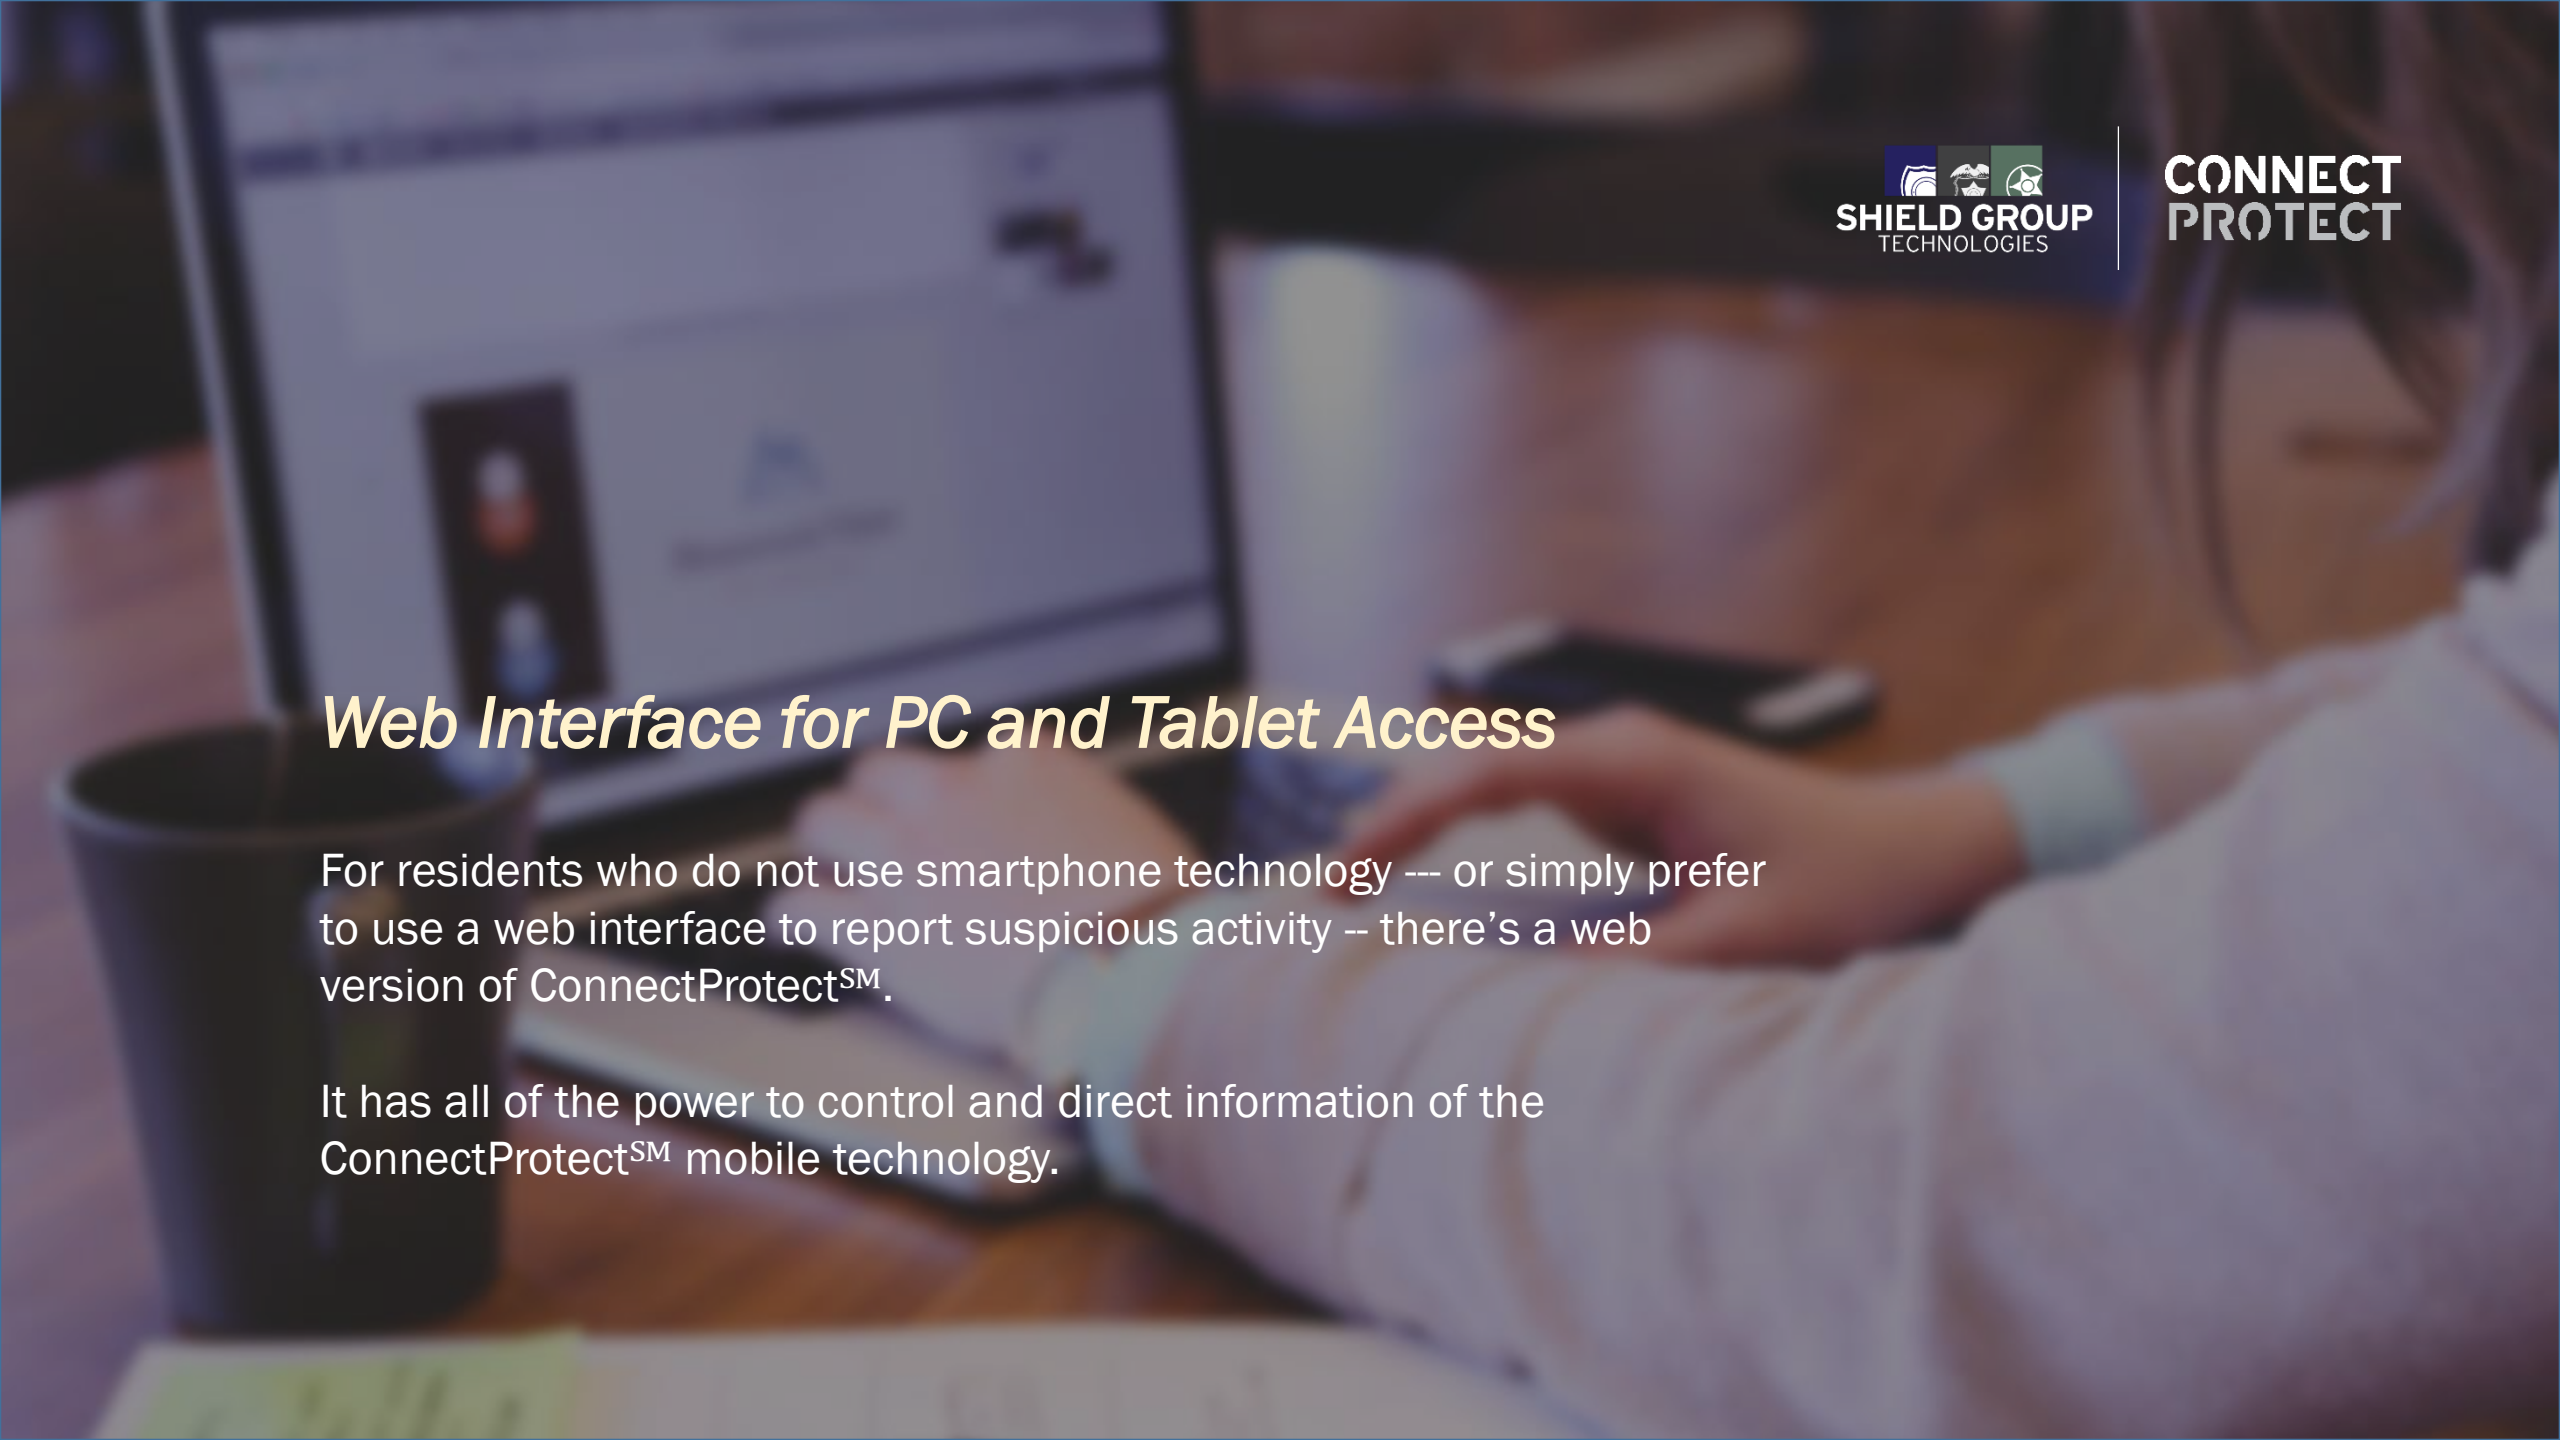
- All suspicious activity reports from the public can be GPS coded with the location from which the information was sent.
- The ConnectProtect℠ CMS Dashboard is user friendly and requires minimal training.
- Suspicious activity reporting is provided to law enforcement via the ConnectProtect℠ CMS Dashboard and/or direct email to command-determined personnel. Use of the CMS Dashboard is optional
- Suspicious activity information is easily forwarded to other law enforcement agencies, personnel or command via email.
- Law enforcement can have multiple users and users can see only the information related to them on the CMS Dashboard.



Send Information to Residents

An Incredible Tool for GEO-targeted Communications with Residents.

Law enforcement can send residents the information they need to know – when and where they need to know it.



SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT

Web Interface for PC and Tablet Access

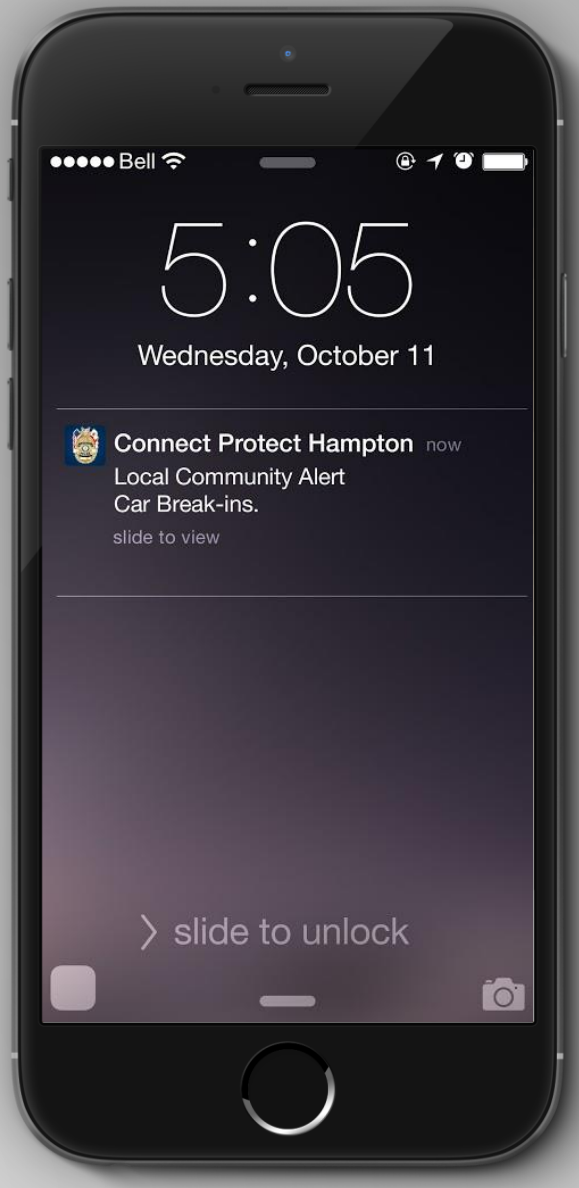
For residents who do not use smartphone technology --- or simply prefer to use a web interface to report suspicious activity -- there's a web version of ConnectProtect℠.

It has all of the power to control and direct information of the ConnectProtect℠ mobile technology.

CONNECT PROTECT

Mobile Application Overview

SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT



01. GEO-Targeted Notifications and Bulletins from Law Enforcement

Law Enforcement can push GEO-Targeted Notifications and Bulletins directly to residents' smart phones based on the resident's exact location at any given time.

SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT

02. GEO-Targeted Notifications and Bulletins from Law Enforcement

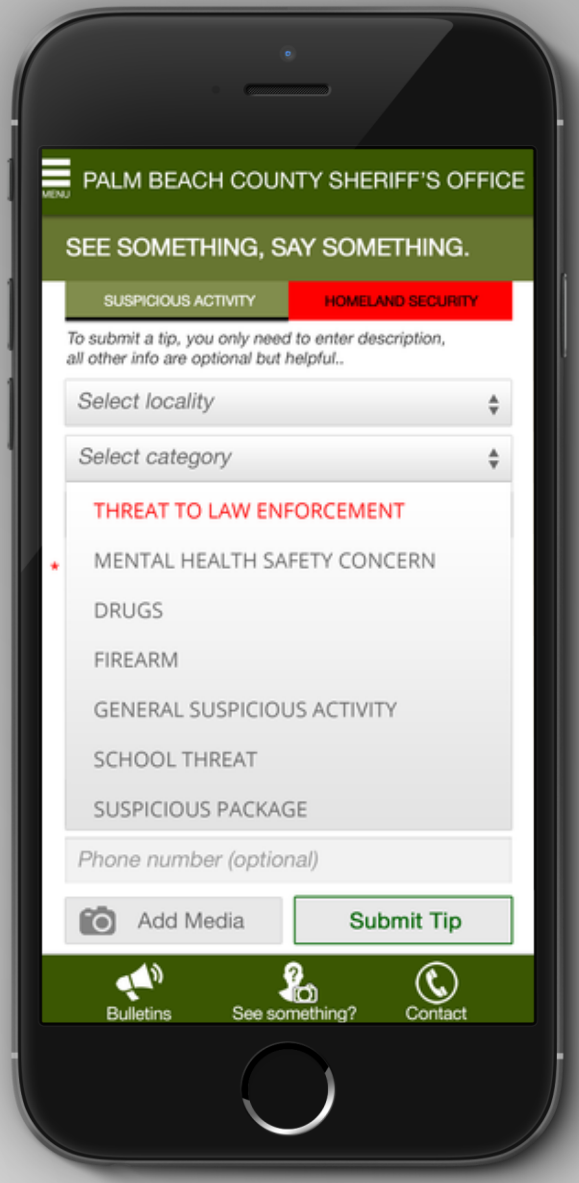
Home Screen of ConnectProtect with See Something? Say Something technology.

SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT

03. Main Screen of the Application

Any links to services or news offered by an agency are displayed in the main screen. Each button on the main screen will open inside of the application browser.

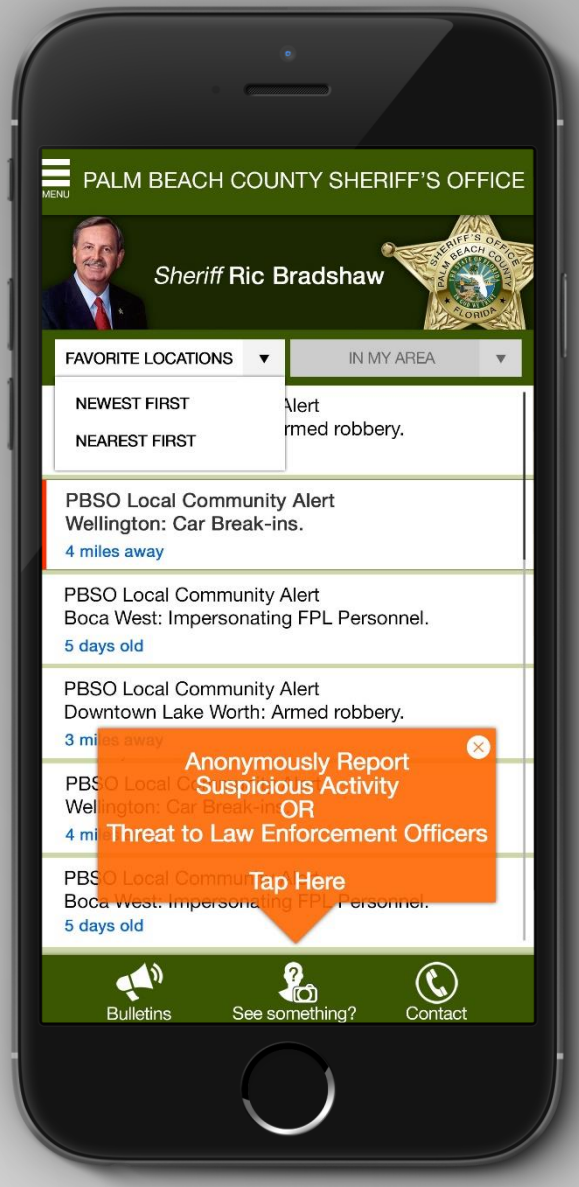
SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT



04. Report Suspicious Activity

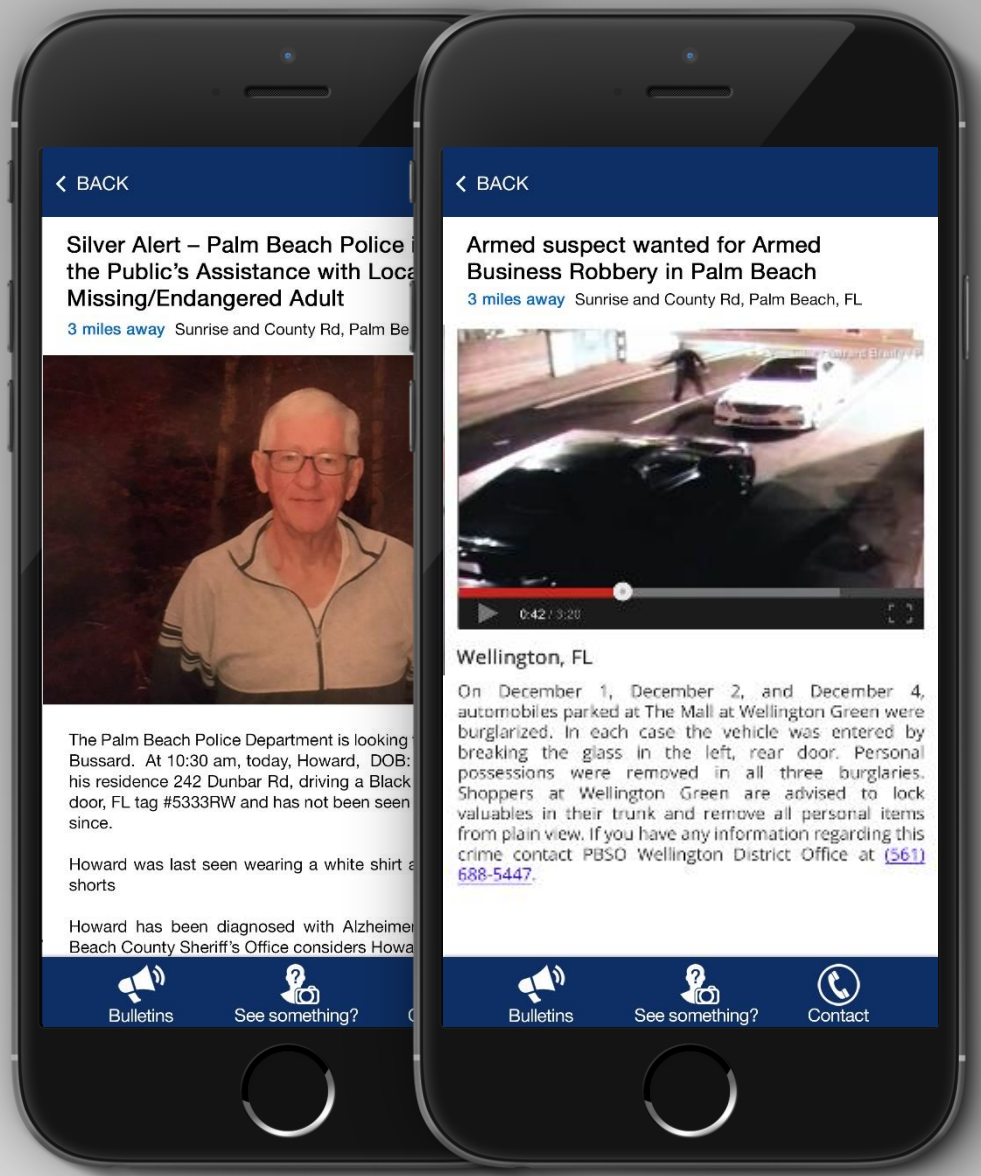
Powerful suspicious activity reporting based on user's exact location and info category. Backed by a world-class information distribution system for Law Enforcements use to personnel and cooperating agencies. Users have the option of anonymous reporting of suspicious activity.

SHIELD GROUP TECHNOLOGIES | CONNECT PROTECT



05. GEO-Targeted Notifications and Bulletins from Law Enforcement

All incidents reported by Law Enforcement are listed either chronologically or by distance from the user's current location.



06. Detail of GEO-Targeted Bulletins from Law Enforcement

Once a Law Enforcement alert has been sent to the user, a simple click supplies all current information.

ConnectProtect can play any uploaded video and audio clips.
